**TIPS TO CRACK THE OLYMPIAD**

The Olympiads are often thought to be the Examination with Difficult Questions, however, the Questions are NOT Difficult. These Questions are just Tricky & based on the combination of your Current Syllabus & Your Basic Knowledge. Below mentioned are the points may help you in achieving a Strong Position in the Olympiad:

- a. **Back to Basics:** The Maximum Olympiad Questions are based on your Class Syllabus only. Don't just Cram the Concepts but learn the basic understanding behind it.
- b. **Know your Examiner:** The Question Paper is prepared by the Author/Examiner on the Topics which are either Important or the Topics which are left out by the Students as they are so called Boring or Difficult. If you know what your Examiner is going to ask, you can prepare & score accordingly.
- c. **Syllabus & Topics:** The Syllabus is mentioned inside this Preparatory Booklet. Read the Syllabus & try to cover the maximum Topics.
- d. **One Month before the Examination:** Sit with your Parents & Teachers more often & highlight the most important Topics. Read & Understand the Topics & practice the important Questions
- e. **One Week before the Examination:** Don't start a new topic. Practice all important Questions & Revise all the Topics.
- f. **On the Day of Olympiad:** Leave every kind of Tensions or Pressure. The One Hour Olympiad is just a Mental Exercise Game which cannot be played with Pressure in your Mind.

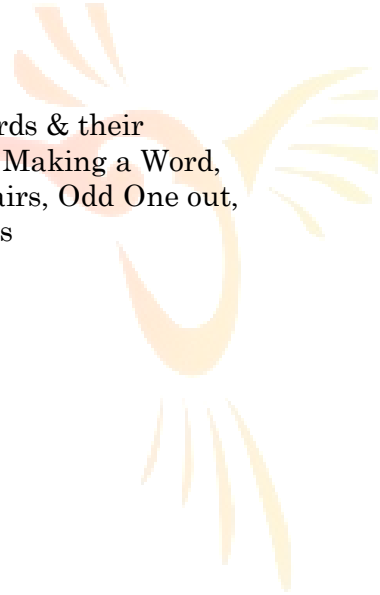

May you get All the Success. Best of Luck.
